

# Winsupply of Saratoga Springs is now stocking Viega Megapress Gas Fittings - 1/2" - 1 1/4".

Viega Megapress G

## PUTS AN END TO WELDING WORK IN GAS INSTALLATIONS.

Safety comes first when gas is concerned. Therefore thick-walled steel pipes are ideally suited for industrial gas installations – and can now be cold-pressed using Viega Megapress G to deliver a safe, reliable and economic connection.

**viega**

### Certified and designed specifically for fuel and gas applications.

- 50-90% installed cost savings
- Engineered with a 420 stainless steel grip ring plus a 304 stainless steel separator ring
- Approved for more applications than any other carbon steel pipe press fitting system suitable for use with ASTM Schedule 5 to 40 carbon steel pipe
- Corrosion-resistant zinc nickel coating
- Approved for underground applications in accordance with code and local AHJ
- Patented smart connect technology helps installers easily identify unpressed connections
